

Given the following routines, on a blank sheet of printer paper, draw the hierarchy chart.

```
void main()
{
  read();
}
```

```
void read()
{
  students();
  staff();
  faculty();
}
```

```
void sort_records()
{
  match_data();
}
```

```
void calc_records()
{
  add_records();
}
```

```
void staff()
{
  payroll();
  health_benefits();
}
```

```
void names()
{
  sort_records();
}
```

```
void students()
{
  payroll();
  health_benefits();
}
```

```
void faculty()
{
  sort_records();
  calc_records();
}
```
